

NEWS LETTER

World Environment Day is the United Nations day for encouraging worldwide awareness and action to protect our environment. Since it began in 1974, the event has grown to become a global platform for public outreach that is widely celebrated in over 100 countries. The theme for 2019 is "Air pollution". Every World Environment Day has a different host country, where the official celebrations take place. The focus on the host country helps highlight the environmental challenges it faces and supports worldwide efforts to address them. This year's host is China.

NSS College Manjeri organized a special event to mark World Environment Day on its campus. Students of BSc zoology participated in the event by planting saplings. College Principal Dr. P Geetha inaugurated and Dr. Sheeba (HoD Department of Zoology) said due to the axing of trees from the planet, the problem of global warming had been erupted. She said "To tackle the problem of pollution and global warming, we have to plant more trees every year. The college staff also motivated the students to contribute towards the protection of the environment." Various activities such as planting saplings and discussion on environmental issues were held.

World Oceans Day provides a Unique opportunity not only in honoring but also in conserving and in protecting our Ocean. Every year it is observed on 8 June, to raise global awareness about the importance of ocean in our lives and the ways through which we can protect it. "Without water, our planet would be one of the billions of lifeless rocks floating endlessly in the vastness of the inky-black void."
